HERNAN VON HAUSEN CARDENAS

Santiago, Chile | +56 9 5129 1623 | hfvonhausen@uc.cl | linkedin.com/in/hvonhausen

PROFESSIONAL SUMMARY

I have over four years of experience driving data-driven decisions in the retail, mobility, and food service industries. I currently work in product management, leading the definition of product requirements, backlog prioritization, and stakeholder alignment for a real-time inventory engine at one of Latin America's largest retailers. I have a strong foundation in Agile, SQL, and product analytics.

CORE SKILLS

Product: Product Requirements (PRDs), Backlog Prioritization, User Stories, Acceptance Criteria, Roadmap, Stakeholder Management, Cross-Functional Leadership
Methodologies: Agile, Scrum, Sprint Planning, Kanban, OKRs
Tools: SQL, Python, Tableau, Power BI, Jira, Confluence, Notion, Excel, MCP Integrations, Claude Code
Languages: Spanish (Native), English (Full Professional), German (Intermediate), Italian (Basic)

PROFESSIONAL EXPERIENCE

Product Business Analyst | **Cencosud S.A.** | *Mar 2025 - Present*

- Define product requirements, user stories, backlog prioritization, and sprint planning for GIV and Inventory within the Order Management cluster.
- Act as a bridge between stakeholders, translating complex requirements into technical initiatives across the entire product lifecycle.
- Leverage Python, SQL, and AI tools to optimze tasks and analyze and extract data, identifying optimization areas that inform roadmap prioritization decisions.

Global Internal Consulting Analyst | **Cabify** | *Mar 2024 - Nov 2024*

- Built executive dashboards in Tableau for C-suite decision-making across 8 LATAM markets on weekly, monthly, and quarterly cycles.
- Designed automated data pipelines reducing manual data gathering and improving report delivery speed.
- Acted as a bridge between stakeholders, translating complex data insights into actionable recommendations for senior leadership.

Business Analyst LATAM | **Cabify** | *Aug 2023 - Mar 2024*

- Created tailored reporting for the LATAM Regional Manager aligned to specific business requirements across weekly, monthly, and quarterly cycles.
- Conducted complex business analysis identifying operational bottlenecks and process improvement opportunities.

Technology Analyst | **The Good Company SpA** | *Jan 2022 - Aug 2023*

- Managed end-to-end IT systems (POS, Shopify, UberEats, Rappi, Braze CRM) for a multi-brand hospitality holding.
- Developed automated analytics flows using Power BI, SQL, and Python, supporting tactical and strategic decision-making.
- Led IT implementation for new cafeteria brand (EspressHood) as primary counterpart to vendor ParTech, managing timelines and system deployment.

Thesis / Intern - Fixed Income | **Credicorp Capital S.A.** | *Dec 2020 - Jul 2021*

- Built automated Fixed Income reports for the Colombian and Mexican markets: rate curve construction, implied monetary policy rate extraction, and fair valuation of government bonds.

Kitchen Assistant | **Mestizo Restaurant** | *Jan 2020 - Mar 2020*

- Operated in a high-throughput environment serving 700+ daily customers, developing rapid prioritization, workflow optimization, and real-time coordination skills under constant pressure.
